Productivity Portal

What is it?

A subscription based cloud solution to help organizations improve staff productivity. It is designed ground up to better assign, organize, track, and measure your employee work (tasks, processes and projects) that are not organized by existing IT systems. It has built in dashboard metrics to view resource usage, spot bottlenecks and measure cycle times. It complements existing systems or can be the primary system for organizations with limited IT solutions.

What does it do?

- Helps in managing both structured and unstructured work
- Provides an easy mechanism to update, re-assign and track employee activities
- Track and change employee work priorities without e-mail clutter
- Real time dashboard showing resource usage details
- Provide statistics to spot bottlenecks and cycle times of processes

Who can use it?

- **Executives:** Provides a dashboard level view of progressing activities and staff usage
- **Managers:** Assign, track, coordinate & quantitatively manage staff work
- **Staff:** Organized task lists, priorities and an ability to update progress without laborious reports
- **Company/Departments:** Any company or department focused on quantitatively improving staff productivity

What problems does it solve?

- Solve your challenges relating to tasks, processes, documents, compliance and productivity
- Electronic workflows reduce hand off times
- Structured processes improve training and minimize the impact of attrition

How does it work?

- No software, No Hardware, No dedicated IT staff
- Works in conjunction with other existing IT systems or can act as the main system for small organizations
- Can be customized and deployed in days

Costs and Benefits:

- No Capital or big upfront investment
- Pay as you go
- Cancel if you do not see results
- Productivity improvement guaranteed
- Gives good control on staff utilization
