Student Portfolio Tracking

- Is a web based solution to help schools implement a student portfolio tracking solution. Students can electronically submit their artifacts; teachers can review, assess, approve and store those artifacts in each students' portfolio within digital file cabinets. These activities can be tracked as the student progresses through various grades.

Student Portfolio Tracking Solution

Helping Schools rapidly implement easy & cost effective Portfolio Tracking

Capabilities:

- Students can easily submit their artifacts
- Each submission is electronically tracked for proper assessment and storage
- Easy search/retrieval/tracking
- Schools can electronically mail information to other schools or organizations

How it works:

- Student submits artifacts by accessing a link on the school website
- Students receive confirmation e-mails, assessment comments etc.
- The digital file cabinet serves as a secure repository of all student artifacts

Benefits:

- Rapidly deploy an emerging best practice
- No Software or Hardware, easy to use
- No capital, low cost subscription solution
- All you need is a computer connected to the internet

Who can use:

- Schools looking to deploy best practice of portfolio tracking
- Elementary-Middle-High schools
- Any size school can use this system
